

# Ohio Senate Bill 112: Ohio Childhood Safety Act

## Attention Ohio Schools!

The Ohio Childhood Safety Act will be signed into law in October 2024, requiring all school facilities to undergo a thorough inspection of fire doors and openings. Schools have 18 months from the effective date to identify and remedy any issues, ensuring full compliance with this crucial safety regulation.

### What Does This Mean for Your School?

- **Mandatory Inspections:** All doors and openings must be inspected to meet safety standards as outlined by Senate Bill 112.
- **Reporting to Fire Marshal:** Schools will need to present the findings from this survey to their local fire marshal, demonstrating compliance.

### Certified Door Services: Your Partner for SB 112 Compliance

We have inspectors that are certified to survey all your door openings including man doors, rolling steel fire doors, fire-rated man doors, and Won-Doors.

- **Complete Facility Survey:** We provide a full inspection of all openings to identify any non-compliance issues.
- **Detailed Compliance Report:** You'll receive a comprehensive report with our findings, making it easy for you to present to your local fire marshal.
- **Guidance on Remediation:** We'll outline the steps to remedy problems, ensuring your school meets requirements within the 18-month timeframe.

**Ensure Your School is Compliant and Safe!**

Partner with a certified expert today.
